### Accountability for Workplace Culture

Our PUD values are at the center of our culture. Putting the safety, health, and well-being of our communities and those we work with is valued above all else and everyone on Team PUD must meet this commitment daily. Nothing we do in achieving our Mission is worth a single injury, and all who interact with us must feel they are valued and welcomed as individuals.

Everyone on Team PUD, in all positions, is accountable for achieving this safe and welcoming culture by:

1. Taking full ownership for the safety of themselves and their coworkers, while ensuring everyone feels valued and welcomed.
2. Taking action to identify and eliminate their own and others' at-risk behaviors, including the behaviors that may undermine another's feelings of being welcomed and valued.
3. Following all safety rules and regulations and ensuring the PUD's expectations for conduct and respect are maintained.
4. Openly sharing near-misses, safety learning opportunities, and ways we can learn to be a more welcoming place while encouraging others to do the same.
5. Utilizing Stop Work Authority to intervene with anyone, anytime, in any place.
6. Intervening or seeking guidance to stop actions that are harmful to the wellbeing, health, or sense of belonging of others, and which are detrimental to our PUD values.

## Job Summary

Applies the long-term Bonneville Power Administration power contract(s) product and analyzes river operations per the contract(s), as well as District-owned resources. Plans operations and output of the resources for next-hour, 10-day, and three months out. Works alongside Snohomish PUD's real-time power scheduler and short-term trader on resource levels and water management to meet District load and market strategy as well as achieve coherent short-term plans. This is the entry level of the Hydro Scheduler series.

## Accountabilities

### Accountability #1

Increase the public's confidence in the quality of the District's power scheduling operations by meeting objectives of District's current contract with BPA and District-owned hydro resources. Learn to submit real time (next hour) and planning (10-day) runs to meet District needs, resolving any issues encountered with minimal impact to plan. Strive to gain water year experience to deliver operationally sound runs next hour to 10-days out. Assist in recommending longer term contract and resource levels and similar responsibilities.

### Accountability #2

Increase the public's confidence in the quality of the District's power scheduling operations by contributing to communications, both written and verbal, of shared information across various time horizons from next hour to ten days out. Accountable for good communication protocol with the Power Scheduler and Short-term Trader on hourly and daily contract and hydro resource levels. Participate in communication with outside entities as needed to ensure understanding of changing data while ensuring confidentiality of data and information. Appropriate information is logged and similar responsibilities.

### Accountability #3

Increase the public's confidence in the quality of the District's power scheduling operations by evaluating and analyzing Slice operations for 10-day to balance-of-month time frame and other District owned hydro resources. Learn trends in weather, operations, and resource output to anticipate possible changes to volumes and constraints. Learn to identify seams issues between study data and collaborate on recommended adjustments or support of current data and similar responsibilities.

### Accountability #4

Deliver exceptional value to our customers through continual improvement and innovation by reviewing application of the Slice product, hydro resources, current practices, and seasonal operations and suggest efficiencies/improvements to align with desire for continuous improvement. Support the Team and/or Hydro Scheduler Lead to assist with consistent understanding of operations, optimal

product delivery, and minimizing spill and similar responsibilities.

**Accountability #5**

Deliver exceptional value to our customers through responsible resource planning and management by delivering up-to-date water forecast volume information from various regional forums (such as the Technical Management Team and the current Slice contract forum) to gain overall understanding of operations from stakeholders. Contribute to utilizing forum (and other) information with solving planning run issues including alignment with forecast District load and or planned contract volumes and similar responsibilities.

**Accountability #6**

Increase the public's confidence in the quality of the District's power scheduling operations by understanding various Power Scheduling Department, District and Regional work processes as they relate to and/or effect hydro scheduling, and similar responsibilities.

**Accountability #7**

Contribute to a community-centric and inclusive culture with empowered, engaged employees by ensuring a positive team culture through inclusion, collaboration, transparency, respect, responsiveness, and compassion and similar responsibilities.

**Accountability #8**

**Accountability #9**

**Accountability #10**
